DETAILED ACTION

Applicant's election of group I, claims 1-84 and 172-204 is acknowledged. However, upon reconsideration of the claims, further restriction thereof is necessitated as follows.

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: non-colloidal structure in claims 10, 39, 172, and 183, claims 11-12, 22-25 and 28, claims 40-59, claims 173-181, and claims 183-199 respectively includes limitations dependent upon which species in claims 10, 39, 172 and 183 is finally elected by Applicant.

- A.) beads
- B.) cell
- C.) biological specimen
- D.) solid support

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-9,, 13-21, 26, 27, 29-38, 60-84, 182, and 200-204 are generic. Claims 11-12, 22-25 and 28, claims 40-59, claims 173-181 and claims 183-199 are subject to species election.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 1641

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
